

UCLA is re-landscaping the area near the Law School and Murphy Hall with lots of really terrific-looking drought-tolerant plants. These campus plants would also grow well in our gardens, so a neighbor asked for the plant list, which UCLA's Office of Sustainability was happy to provide -- along with the information that the campus has pledged to replace 73,000 square feet of ornamental turf as part of its response to the Mayor's call for a sustainable Los Angeles.

The plants currently being installed near the Law School include the following:

Lantana Montevidensis

Leymus "Canyon Prince"

Diets Butcheriana

Diets Grandiflora

Westringia "Blue Gem"

Lomandra "Katie Bells"

Callistemon "Lil Better"

Olea Europea "Little Ollie"
